Editorial policy. *Aquaculture and Fisheries Management* is an international Journal which publishes papers on: (1) practical or theoretical topics relevant to freshwater and marine aquaculture; (2) the conservation of freshwater and marine fish; and (3) the creation, development and management of commercial and recreational freshwater and marine fisheries in both temperate and tropical regions. Research papers, review articles and short communications will be accepted on the basis of their international context. On the decision of the editors, papers will be refereed by authorities in the relevant fields, including members of the Editorial Board. The Editors have final decision on publication.

Subscription rates. *Aquaculture and Fisheries Management* is published quarterly and the subscription price for 1985 is £60.00 (UK), £72.00 (overseas) and $108.00 (USA and Canada) post free. The Journal is delivered to North America by accelerated surface post and subscribers there can expect to receive their copies within two weeks of British publication. Current issues for the Indian sub-continent, Australasia and the Far East are sent by air to regional distribution points from where they are forwarded to subscribers by surface mail. Any back numbers are normally despatched by surface to all regions, except North America, where they are sent by a.s.p., and India, where they are sent by air freight.

Business correspondence. All matters relating to orders and subscriptions, back numbers and offprints should be sent to Blackwell Scientific Publications, PO Box 88, Oxford, England.

Advertisement bookings. Enquiries should be sent to the Advertisement Manager, Blackwell Scientific Publications, Osney Mead, Oxford OX2 0EL, England (telephone 0865 240201).
